

DO BUSINESS LOCAL

The Alexandria Lakes Area is economically strong because of the diversity of business sectors in the area, from retail to manufacturing, healthcare to education, agriculture to tourism, arts and entertainment to hospitality, and more!

The local unemployment rate is consistently below the national average, our educational system is among the best in the state, our health care system has a regional draw, and our focus on arts, entertainment, unique shopping and fine food are a strong draw for visitors and residents alike.

More importantly, the spirit of collaboration and local support are strong throughout the community. With programs like Chamber Bucks and Pride of the Lakes, people understand the importance of doing business locally and keeping dollars local to put back into the area's infrastructure. With everyone doing their part, we help our community thrive.
