(c) Other building permits: The Commission shall review and make recommendations to the Council concerning the issuance of building permits to do any of the following in a historic district or State designated historic site:

1. New construction – New building or new addition to an existing building
2. Remodel – Alter, change or modify building or site
3. Move a building – Building or structure moved into the city.
4. Excavation – Dig out materials from the ground.
5. Demolition – Destroy, remove or raze – completely tear down

(d) Factors considered: The Commission, upon receipt of the permit application and plans, shall determine if the work to be performed adversely affects the designated historic site, landmark or district. In determining whether or not there is an adverse effect to the historic site, landmark, or district the Commission shall consider the following factors:

1. Whether the work will significantly alter the appearance of the building or structure so as to remove the features which distinguish the historic site, landmark or district as a significant cultural resource.
2. Whether the use of the property will destroy, disturb or endanger a known or suspected archaeological feature site.

(e) Standards and guidelines: The Secretary of the Interior’s Standards for the Treatment of Historic Properties (listed below) shall be required basis for permit review decisions.

1. The Comprehensive Plan adopted by the City shall be the authoritative guide to reviewing permits in relation to designated historic sites, landmarks and historic districts.

2. A property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.

3. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

4. Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken.

5. Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.

6. Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a historic property shall be preserved.
7. Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.

8. Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.

9. Significant archeological resources affected by a project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken.

10. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

11. New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

(f) Appeals: Any party aggrieved by a decision of the Commission shall within ten (10) days of the Commission’s action recommending denying the issuance of a building permit within a historic district have a right to appeal such decision to the City Council. The Commission in recommending denial of a building permit shall advise the applicant of his/her right to appeal to the City Council. The aggrieved party shall file with the Building Official a written notice requesting Council review of the action taken by the Commission.

Section 2-94 Maintenance of records and documents

The Commission shall conduct a continuing survey of cultural resources in the City which the Commission has reason to believe are or will be eligible for designation as historic sites, landmarks or districts. The Commission shall also prepare and maintain a Comprehensive map and survey.

(a) Register of Historic Sites and Landmarks: The City shall maintain a register of historic sites and landmarks.

(b) Repository for Documents: The office of the Building Official is designated as the repository for all studies, surveys, reports, programs, and designations of historic sites and landmarks.
